AVIRAL TRIPATHI

Greater Noida, Uttar Pradesh, India / 7983520752 / aviraltripathi25@gmail.com / LinkedIn / GitHub / Portfolio

Summary

Computer Science undergraduate seeking a Software Engineering Intern role. **Full-stack MERN/PERN developer** with experience building scalable web applications and RESTful APIs. Strong foundation in data structures and algorithms, with proven problem-solving skills through hackathons and competitive programming.

Education

KLE Technological University, Hubballi, Karnataka — Aug 2024 – May 2028

Bachelor of Engineering in Computer Science — CGPA: 8.34

Relevant Coursework: Data Structures and Algorithms, OOP, DBMS, Operating Systems

Project Experience

- **HealthDesk: Telemedicine Platform** — Live / GitHub — Nov 2025
  Next.js, React.js, Tailwind CSS
  Built a telemedicine web application during a national hackathon, collaborating in a team of four to solve real-world healthcare problems.
  - Built a responsive **Pharmacist Control Panel** using **Next.js**, implementing dynamic routing and real-time UI updates for geolocation-based medicine availability and stock notifications.
  - Integrated backend APIs using **Fetch API**, efficiently managing asynchronous data fetching, varied API responses, and frontend state updates.
- **Streamly - YouTube Clone** — GitHub — Jan 2026
  Node.js, Express.js, MongoDB, Mongoose, Cloudinary
  - Developed a scalable video streaming backend with **RESTful APIs** for authentication, video uploads, and metadata management.
  - Implemented secure **JWT-based authentication** (access + refresh tokens) with bcrypt hashing and cookie-based session handling.
  - Engineered media upload pipelines with **Multer and Cloudinary**, and optimized video discovery using MongoDB aggregation and pagination.
- **OnlyTechs** — Live — Sept 2025
  Next.js, React.js, Tailwind CSS
  - Designed and developed the **UI for a skill-based leaderboard platform**, featuring a dynamic rankings dashboard integrated with backend APIs.
  - Implemented **efficient pagination and data rendering** to handle large ranking datasets while maintaining performance and responsiveness.

Technical Skills

Languages: C/C++, JavaScript, Python, SQL

Frameworks/Libraries: React.js, Next.js, Express.js, Node.js, Tailwind CSS, HTML, CSS

Databases: MongoDB, MySQL, PostgreSQL

Tools/Concepts: Git, GitHub, Postman, VS Code, Vercel

Achievements

- **Winner – Hack Karnataka (HealthTech Track)** – 1st place among 50+ finalist teams at a national-level hackathon.
- **Finalist – AlgoBlitz:** Achieved a Top 3 ranking in a university-wide Data Structures and Algorithms Competition.
- Solved **400+ problems across Codeforces and LeetCode** with regular contest participation, strengthening algorithmic problem-solving skills.
